

GrowthPilot Agency

Marketing Playbook — June 2026

Marketing Playbook: LinkedIn Outreach, Guest Posting & Cold Email

1. LinkedIn Outreach

Target: Founders, CEOs, Heads of Marketing at companies with 10–200 employees, poor Core Web Vitals, or no structured data.

Profile Setup:

- Use the GEO Meta Tag Generator as a free lead magnet ("I built a free tool that checks if your site is AI-search ready")
- Post 3x/week: audit screenshots, GEO trends, client result snippets

Outflow Sequence (3 steps, 2 days apart):

1. **Connection request** (no note, or a 2-line note):

"Hey [Name] — I noticed [Company]'s site could benefit from GEO optimization. I built a free tool that might help."

2. **Value message** (after connection):

"Thanks for connecting! I ran [Company].com through our free audit tool and found [1–2 specific issues, e.g. 'no FAQ schema and missing alt text on 5 images']. These are easy fixes that help you show up in AI search results. Happy to share a quick 3-point action plan if you're interested."

3. **Soft CTA** (2 days later):

"No pressure at all — if you'd like a full 15-min audit of your site's AI search readiness, I'm happy to jump on a quick call this week. Otherwise, the free tool is always available at growthpilotagency.com/audit."

Targeting criteria (LinkedIn Sales Navigator):

- Industry: E-commerce, SaaS, Professional Services, Healthcare, Real Estate

- Company size: 11–200
- Posts about: SEO, marketing, growth, AI
- Geography: US/UK/Canada (or your priority cities)

2. Guest Posting

Goal: 2–3 high-authority backlinks/month from sites your target audience reads.

Target sites by tier:

Tier	Sites	Pitch angle
A	Search Engine Journal, Search Engine Land, Moz Blog	"How GEO is replacing traditional SEO: a framework for 2026"
B	SaaS blogs (Shopify, HubSpot, Webflow, Stripe), Indie Hackers	"5 AI search optimizations that doubled our organic traffic in 90 days"
C	Niche industry blogs	"Local GEO: how [industry] businesses can dominate AI search"

Pitch template:

Subject: Article idea: [Angle relevant to their audience]

Hi [Editor],

I'm a contributor at GrowthPilot Agency, where we specialize in GEO (Generative Engine Optimization) — helping businesses show up in ChatGPT, Perplexity, and Google AI Overviews.

I've noticed [Target Publication] covers [their recent relevant article], but I think your readers would benefit from a practical guide on [your angle]. I've seen firsthand how [stat/fact about results].

Here's what I'm thinking:

- **[Proposed title]**
- Key insight / framework they haven't covered
- Real data from case studies
- Actionable takeaways

I've written for [any past publications if you have them, otherwise skip]. Would this be a fit for [Publication]?

Outreach workflow:

1. Find editor's email using hunter.io or by checking the publication's "Write for Us" page
2. Send pitch
3. Follow up in 7 days
4. If accepted, deliver draft within 10 days

5. Include 1 contextual link back to your audit tool or meta tag generator

3. Cold Email

Target: Companies ranking on page 2–3 for their primary keyword (they're close but not quite there — GEO can push them over).

Tooling: Apollo.io or Instantly for leads + sending. 30–50 emails/day to start.

Sequence (4 emails, 3 days apart):

Email 1 — Audit hook:

Subject: [Company] + AI search

Hi [First],

Quick question: are you tracking how your site shows up in ChatGPT or Google AI Overviews?

I ran [Company].com through our free GEO audit and found it's missing [1 specific thing, e.g. "FAQ schema that would help you appear in AI answers"].

This is a 5-minute fix that can put you in front of users who never click traditional search results.

If you want, I can send over a 3-point checklist specific to your site — no strings attached.

Email 2 — Value add (if no reply):

Subject: Re: [Company] + AI search

[First],

Just wanted to share a quick resource we put together — it's a free GEO Meta Tag Generator that creates the exact schema and tags AI search engines look for:

[link to tool]

It generates everything in one click. Might be useful for your team.

Email 3 — Case study (3 days later):

Subject: How [similar company] increased AI visibility by 340%

[First],

We recently worked with a [industry] company similar to yours. By adding structured data + optimizing for GEO, they went from appearing in 0 to 12 AI-generated answers for their target keywords in 6 weeks.

Happy to share the specific changes we made if you're interested.

Email 4 — Breakup (5 days later):

Subject: Closing the loop

[First],

No worries if the timing isn't right. Our free audit tool is always available if you want to check your site's GEO readiness later:

[link to audit]

Take care, [Your name]

Quick wins checklist to include in email 1:

- ☐ Add FAQ schema (boosts AI answer appearance by ~40%)
- ☐ Add Open Graph + Twitter Card tags
- ☐ Ensure meta description is 120–160 chars
- ☐ Add a canonical URL
- ☐ Compress images and enable Gzip/Brotli
- ☐ Add one H1 per page

KPIs to track

Channel	Goal	Tool
LinkedIn	50 new connections/week, 5 warm intros/month	LinkedIn + Sales Navigator
Guest posting	2 accepted pitches/month	Hunter.io, pitch tracker (spreadsheet)
Cold email	5–10% reply rate, 2–5 booked calls/month	Apollo.io, Instantly

Stack recommended

Tool	Purpose	Cost
Apollo.io	Lead gen + email sequences	~\$49/mo
Hunter.io	Find editor emails	Free tier
Instantly	Warm up + send cold emails	~\$30/mo
LinkedIn Sales Navigator	Target founders/marketers	~\$80/mo
